2018-Present

The public playground of Bissorã, Guinea-Bissau was left to ruin. Built in 1993 by the “Mission Francaise”, the four basketball hoops were devoid of both rims and backboards, and the playground presented dangerous holes.

3-step approach

1.

Renovations: All four basketball hoops were renovated with new backboards, new rims, painting, and securing the pools on the ground. The holes on the playground were fixed, and we painted the regulation basketball lines.

2.

The Trip: from November 27 to December 2, 2018, we traveled to Bissorã with basketball material and conducted coaching clinics for local school teachers as well as a one week open training camp for the youth.

3.

The Follow-up: We left 34 basketballs, basketball jerseys and coaching manuals in Portuguese to the school teachers of Bissorã. With the overview of the ADPP, a local NGO, we let the community of Bissorã find the best solution to create a basketball movement.

Ukonga Basketball is a program from the community of Ukonga, in the suburb of Dar Es Salaam.

Founded in 2014, the Ukonga Basketball Academy has enjoyed quite some success. The program oversees 8 teams, including 4 women's teams, and are regularly amongst the best teams in Dar Es Salaam. UBA has also produced players who were selected for the Tanzanian youth national teams and that have represented Tanzania in international festivals such as Basketball Without Borders, GOA and NBA Academy.

Unfortunately, the community of Ukonga does not enjoy proper sport structures. UBA shares one court with Tz Prisons (owner), where 10 teams practice regularly.

U16 boys and U14 girls are the Jr.NBA 2022 Champions since November 2022.

After a long wait due to the Covid 19 Pandemic, we were finally able to secure the funds to build a new basketball court for UBA and the Ukonga Community.

In October 2021, the constructions started but were halted due to heavy rainfalls.

In June 2022, the court was finally completed and handed over to the Juhudi School. The first team practice took place on June 5th, 2022.

Thanks to this new basketball court, the teams of the community enjoy a much better access to a place where they can train their beloved sport. The court being part of a public school ground, it is also being used by the school's programs, making it very impactful.
